02/12/22

Meeting Notes

Attending

Marcos Barajas
Arshdeep Brar
Irtiza Khan
Emanuel Miranda-Mercado
Nadeem Mohammed

Announcements

- Condense brainstorming documentation into pseudocode
- Email professor for direction, no questions as of now

Discussion

Questions posed: how should GUI look, is server IP input to reach it, where is data stored, how much work does server handle, and general ideas along server lines. Group should have a solid idea of how to best complete project documentation by next week. Will assign roles based on contributions to documentation edits

Roundtable

Marcos, Arshdeep, Irtiza, Emanuel, Nadeem - add edits to documentation, will have more official workspace by next week

02/16/22

Meeting Notes

Attending

Marcos Barajas

Arshdeep Brar
Irtiza Khan
Emanuel Miranda-Mercado
Nadeem Mohammed

Announcements

- Roles reassigned
- Requirements to be finalized tonight

Discussion

After class meeting to gauge workloads for project. Requirements were rediscussed and all features with will make it to production have been introduced. Roles reassigned to better fit group.

Roundtable

Marcos, Emanuel - produce use cases

Arshdeep, Nadeem - produce diagrams

Irtiza - oversee project, make collaborative Google Doc, prep Github

02/19/22

Meeting Notes

Attending

Marcos Barajas
Arshdeep Brar
Irtiza Khan
Nadeem Mohammed

Announcements

- Status inquiry; everyone seems alright with workload
- Potential issue with duplicate use cases, naming conventions

Discussion

Night meeting to inquire about the status of completion for SRS docs, use cases, UML diagram, and if requirements were all met. Final stretch and all assignments should be completed by tomorrow night, or early Monday morning before class. Use cases were discussed and modified to be more identifiable. Duplicate case was found and removed.

Roundtable

Marcos, Irtiza - finalize UML and use cases

Nadeem, Arshdeep - finalize SRS and organize Github

02/21/22

Meeting Notes

Attending

Marcos Barajas
Arshdeep Brar
Irtiza Khan
Emanuel Miranda-Mercado
Nadeem Mohammed

Announcements

- Final edits/adjustments made to use cases and UML

- Submit files to Github

- Assign roles for future production

Discussion

Meeting before class to ensure that all documentation is ready to be submitted for grading. Potential hardships and difficulties with particular features were discussed and roles for implementing said features were assigned.

Roundtable

Marcos, Irtiza, Emanuel - UML overview

will produce and test projects

Nadeem, Irtiza, Arshdeep - SRS overview

will build and test classes for features
